SUMMARY

Passionate and Skilled Aspirant with a robust foundation in **Angular, HTML5, CSS3, SQL** and **Java**.
Trained in **Cloud Computing with AWS**. Dedicated problem-solver committed to realizing project visions.
Committed to continuous learning and excellence in delivering impactful solutions.

SKILLS AND ACCOMPLISHMENTS

Angular | HTML5 | CSS3 | Bootstrap | Java | C++ | SQL | MySQL | GitHub | OOPS | Data Analysis | Problem-Solving | Networking | SDLC | Excellent Communication | Time Management | E-mail Writing | Spreadsheets | MS Word

CERTIFICATIONS

- Foundations: Data, Data Everywhere - **Coursera Certification.**
 - Ask Questions to Make Data-Driven Decisions - **Coursera Certification.**
 - Prepare Data for Exploration - **Coursera Certification.**
 - Process Data from Dirty to Clean - **Coursera Certification.**
 - Analyze Data to Answer Questions - **Coursera Certification.**
 - C & C++ Programming - **Disha Computer Institute Certification.**
 - HTML, CSS, JavaScript - **Udemy Certification.**
 - Cloud Computing with AWS – **Internshala Certification.**
-

TRAININGS

Data Analytics (Nov 2023 – Present)

Currently engaged in Google Data Analytics training, I've gained skills in processing raw data into usable formats and learned to ask meaningful questions for effective data exploration.

Cloud Computing with AWS (Aug 2022 – Sep 2022)

Completed a comprehensive 6-week online Cloud Computing with AWS training via Internshala. Acquired proficiency in key areas such as Introduction to Cloud Computing, AWS Identity & Access Management, Simple Storage Service (S3) and Databases.

WORK EXPERIENCE

Frontend Developer (Intern)

Ameliorate Digital Consultancy Pvt Ltd, Ichalkaranji (Jul 2023 – Nov 2023)

- Utilized Angular, Bootstrap, and Angular Material for project development.
- Collaborated with the development team to design and implement frontend solutions for web applications, resulting in a 20% increase in project delivery efficiency.
- Contributed to the development of Angular based application, enhancing its performance and functionality, leading to a 10% increase in user satisfaction.
- Participated in code reviews, providing constructive feedback and suggestions for code improvements, resulting in a 90% reduction in post-release defects.

PROJECTS

- **CryptaShield (Apr 2024 – May 2024) | Link | Overview**
Your secure vault for safeguarding sensitive personal information.
 - Developed a web application, CryptaShield, is meticulously crafted to ensure the utmost protection for your Aadhar card details, PAN details, and bank information.
 - Leveraging the robust RSA algorithm, we employ cutting-edge encryption and decryption techniques to fortify your data against unauthorized access.
 - **Skills Used:** Angular, Bootstrap, Typed-Js, Sweet-alert2

 - **Plant Diseases Detection using Machine Learning (Nov 2023 – May 2024)**
 - Developed a system capable of detecting plant diseases at an early stage, enabling timely intervention to prevent the spread of infections.
 - **Skills Used:** Machine Learning, Data collection, Data Processing.

 - **Quiz Portal (Oct 2023 - Nov 2023) | Link**
 - Developed a dynamic web application leveraging the Angular frontend framework, showcasing proficiency in key Angular concepts and ensuring an optimal user experience.
 - **Angular Concepts Applied:** HTTP-Client Module for **API Calls**, Reactive Forms for **dynamic form fields**, Lazy Loading for **improving application performance**, Routing for **navigation between components**.
-

EDUCATION

- **BTech in Computer Science (79%) | Year of Completion: 2024**
Shivaji University, Maharashtra.
- **Higher Secondary (77%) | Year of Completion: 2020**
Govindrao Junior College, Maharashtra.
- **Secondary School (87%) | Year of Completion: 2018**
Vyankatrao High School, Maharashtra.
